"We provide support through training, technical assistance and technology, adapting ourselves to the context and to local needs"

Iñigo Albizuri Landazabal
President of Mundukide Fundazioa

It was foreseeable but many did not want to believe it. They thought that wars in Europe had disappeared and would not return. That if there was to be a war, it would obviously be short-lived because no one wanted a long drawn-out war. Bombings are still going on.

How many beliefs and how many certainties will we still have to examine in this world that is moving at breakneck speed and in which everything is hyper-connected?

No one imagined the impact of war on our daily lives, on our shopping baskets, on our well-being. In any case, whatever happens to us is a far cry from the impact suffered in other places such as Africa, where the lack of Ukrainian grain is compounded by the shortages already endemic to the region: persistent droughts,

lesser-known but equally terrible local armed conflicts, shortages of resources and corruption.

And so, once again, it is those who have the least who suffer the most, and inequality continues to grow in the world with each new crisis, corroborating Stiglitz's thesis that poverty is inherited more than wealth. Because if you are born poor, you are likely to remain poor for life.

Against this bleak backdrop, but confident that social transformation can come about through cooperation, at Mundukide we have drawn up a new Strategic Plan for the period 2022-25. Our commitment for these four years is to increase the impact of our cooperation in order to continue offering more and better life alternatives to thousands of people. Because we know, we feel it is more necessary than ever.

And to do so, we are committed to a management model based on the cooperative culture. With people and their work as the driving force for development. We don't hand out fish; we teach people how to fish. We support them with training, technical assistance and technology, adapting to the context and local needs.

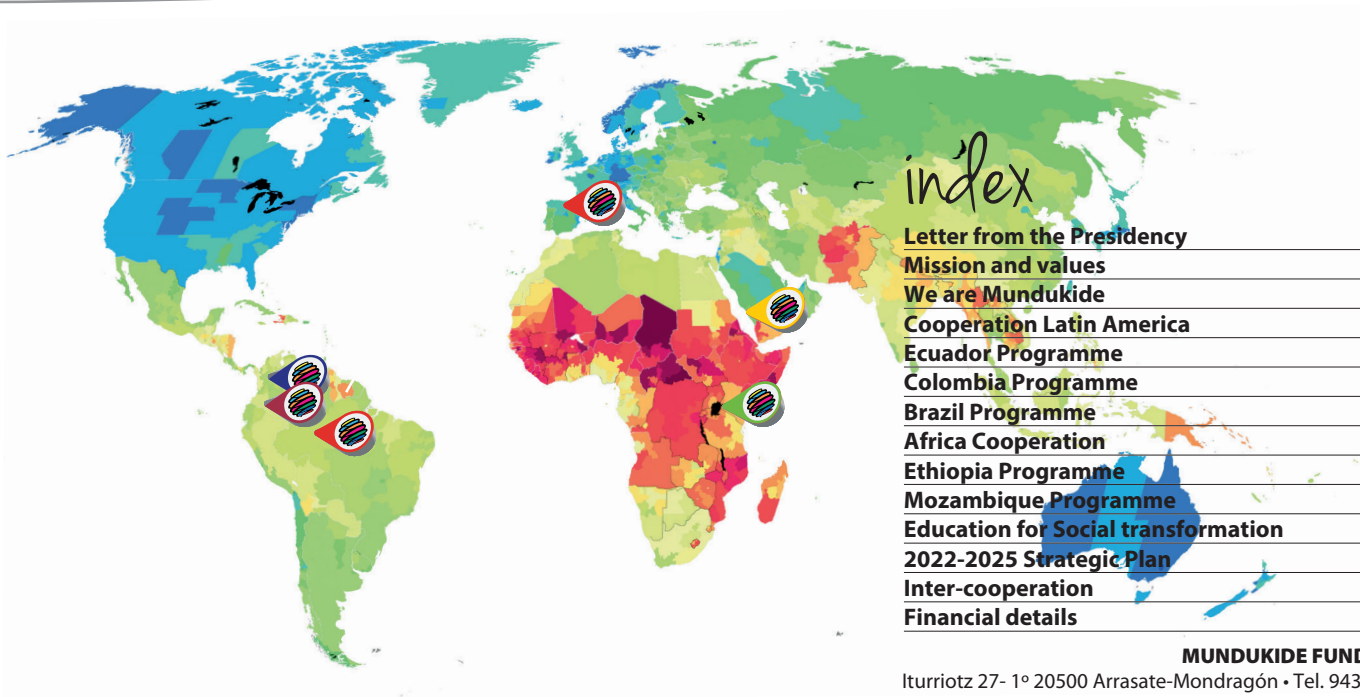

to the local needs. We owe all this to our team of aid workers who, based on their experience, work directly with the communities. But we also owe it to the volunteers, institutions, NGOs, companies and people like you who financially support each of the projects. Without your support our work would be impossible.

The people of the global South lack many things that we have, but there is one thing that they have that we lack here: "awareness of our vulnerability".

Until now we have been trying to raise awareness in order to help other people with the "certainty" that we would never have to face certain problems here. Today, we understand better the meaning of the most repeated word in recent times: uncertainty. We should not forget where we come from because one day we might have to go back there.

That is why solidarity between peoples and individuals is essential.

Forward, always going forward!

Mission

Our main task is to collaborate in cooperation programs, promote solidarity projects, working with local people and entities. We share experiences, resources and expertise, to strengthen the self-managed and comprehensive development of the parties involved, by activating the solidarity of the world of cooperative work, based on and guided by Mundukide's values and principles.

values

UNIVERSAL SOLIDARITY

Solidarity with other solidarity economy experiences and with those who work for social democracy, sharing objectives of peace, justice and development, is the basis of the work of all who participate in Mundukide.

WORK

Our work is like a transforming action, an action for change, a way to achieve development. In Mundukide we believe that work is a value in itself, and we believe in the supremacy of work over capital.

TRANSFORMATION

In Mundukide we seek transformation towards fairer and more self-governed peoples and societies in all spheres, including gender relations; from this perspective, autonomy is essential for each person, group and community to decide the model of society they want to achieve.

companies

Collaborating
organisations

Mundukide is a partner or belongs to the following coordinators/platforms as of the end of 2022:

SOCIO-ECONOMIC ORGANISATIONAL STRENGTHENING

Latin America

We contribute to strengthening the entrepreneurial, organisational and cooperative work of structured counterparts that have local leadership and are fully committed to social transformation in Brazil, Colombia and Ecuador.

Training people

Participants: 5.750
Beneficiaries: 28.628
Investment undertaken: 1.315.014€
Sales support: 2.550.000€

Support to cooperatives

Promoting new social enterprises

Marketing

Inter-cooperation

Ecuador

**Yon Arruti
Chasco**
(Ibarra)

AIMS OF THE PROGRAMME

Promote sustainable socioeconomic development and strengthen the associativity of rural organizations of the Northern Frontier district and the Amazon.

2022 BALANCE

In collaboration with the Toisán Corporation, important work has been carried out to strengthen the 10 entrepreneurial endeavours in the Cotacachi region, led mostly by women. The work has focused on increasing their capacities in the productive, commercial, entrepreneurial and organizational areas. Through a participatory process, jointly they have managed to establish the “Kutakachi” Marketing Network to increase sales and expand their reach to a wider market. The Wiñak cooperative has received continuous support in order to optimise governance and planning. However, it has been a challenging time for this Kichwa association, due to difficulties in marketing the Guayusa plant.

2023 OBJECTIVES

- Contribute to the consolidation and assimilation of the proposal of the “Kutakachi” joint marketing network together with the Toisán Corporation and the Assembly of the Cotacachi Cantonal Unit.
- Support the Wiñak cooperative, to consolidate their structure and governance.
- Identify other initiatives to support.

Cumandá Maldonado (Representative of the Intag Women’s Coordinating Agency and member of CORPAIS):

“The most important support provided by Mundukide is the motivation to strengthen our enterprises. They help us to be more organized, to work with other entrepreneurial projects, with greater planning and innovation, to secure quality INTAG-brand products to sell outside the canton”.

	ACTIVITY	INSTRUM.	RESULT	WOMEN
8 DECENT WORK AND ECONOMIC GROWTH 	SUPPORT TO COOPERATIVES	11 cooperatives assisted	92 workers 908 persons trained	61% women
	TRAINING IN MANAGEMENT OF COOPERATIVES		55 persons trained	42% women
4 QUALITY EDUCATION 	PARTICIPANTS		147 Persons	53% women
	BENEFICIARIES		1,643 people	56% women

AGRICULTURAL DEVELOPMENT INDIGENOUS PASTO PEOPLE

AIMS OF THE PROGRAMME

Strengthen food sovereignty, family economy and resilience to external events of the Indigenous women of Pasto de Nariño.

2022 BALANCE

Agricultural work with Indigenous women of Pasto is progressing slowly. An agroecological package has been defined with pilot productions to be reduplicated. The idea of agroecology needs time to materialise in the chagras (designated crop-growing areas) and agricultural lands of Pasto women. It is a task of persistence that must be maintained over time until changes in agricultural habits take hold. The Indigenous government of the territory of Gran Tesucal is excelling in the implementation of agroecological solutions.

2023 OBJECTIVES

- Intensify the implementation of the agroecological agriculture model within the Resguardo Gran Tesucal [reservation].
- Strengthen agricultural assistance and commercialization within the institutional structure of the Resguardo.

	ACTIVITY	INSTRUMENT	RESULT	WOMEN
8 DECENT WORK AND ECONOMIC GROWTH	ASSISTANCE TO AGRICULTURAL PRODUCTION	Agroecological training and assistance	233 people have undertaken new production techniques	192 women (82%)
13 CLIMATE ACTION	ACCESS OF PASTO WOMEN TO ECONOMIC RESOURCES	Support and capital for credit funds	9 new funds in place for 127 people	95 women (75%)
5 GENDER EQUALITY	PARTICIPANTS		233	80%
2 ZERO HUNGER	BENEFICIARIES		1.165	60%

Genith Quintiaquez
(ex-governor of the Resguardo Indígena del Gran Tesucal [indigenous reservation]):

Among the Pasto people, our struggles have been very much focused on the recovery of land, identity and political participation, but there were few successful experiences of economic autonomy. And then we got to hear of Mundukide. Their philosophy of cooperation seems very special to me because it recognises the communities' own knowledge and strengthens the dynamics in the territory".

GROUP OF OFFICIAL WASTE PICKERS OF PASTO

Asier Elorza Ugarte
(Nariño)

AIMS OF THE PROGRAMME

Assimilate the organisations of waste pickers to create a single entity for the provision of recycling services in the Southwest of Colombia.

2022 BALANCE

The recycling scheme has expanded from Pasto to cover the whole of the southwest. Mundukide assists in the administration and planning of 6 associations in Cali and Pasto. The Asociación Girasoles [Sunflower Association] of Pasto (Nariño) has been strengthened with support and guidance to improve its operational and social functioning. The administrative processing of the Association of Waste Pickers of the Southwest of Colombia (initials in Spanish ARSOC) as a service provider will facilitate its development as well as that of its partner associations. Through ARSOC, a 2-tier association, inter-cooperation between waste picker associations has progressed very favourably. In addition, at a national level, a process of organisational backing has begun with the National Association of Waste Pickers (initials in Spanish ANR), which is still in its initial stages, having undertaken training on social enterprises and related work.

2023 OBJECTIVES

- Continue the consolidation of the Association of Waste Pickers of the southwest of Colombia (initials in Spanish ARSOC) by initiating the process of setting up Service Provision Companies (initials in Spanish EPS) that manage the excise tax.
- Define and initiate the implementation of a social management assistance plan with the National Association of Waste Pickers (initials in Spanish ANR).

ACTIVITY	INSTRUMENT	RESULT	WOMEN
ECONOMIC GROWTH	Excise tax through access as a service provider	192 people have increased their income	138
ASSISTANCE IN MANAGEMENT	Building and strengthening 9 organisations in the southwest	363 persons assisted	272
TRAINING	Training leaders of organisations at a national level in organisational culture	206 persons trained	144
PEOPLE PARTICIPATING		569	416
PEOPLE BENEFITING		1.815	60%

Nohra Padilla (President of the Association of Waste Pickers of Bogota (initials in Spanish ARB) and member of the National Assoc. of Waste Pickers (ANR):

“We have an urgent need to strengthen our cooperative system because it is the only alternative we have for self-organisation and to be able to properly manage our trade, with the aim of improving recycling levels and, of course, the quality of life of the people who are part of it”.

Brazil

AID WORKERS

AIMS OF THE PROGRAMME

Contribute to the socio-economic development of the camped and settled families of the MST (landless workers' movement), providing management training to prominent local people to improve the performance of the cooperatives, from production to marketing.

2022 BALANCE

2022 was the year of getting back to face-to-face training. A return to a normality that we used to know, but marked by the on-line experience. Proof of this is the training in Marketing that has been carried out in a combined face-to-face and online format for cooperatives in the three southern states, or the national training in Cooperative Management that has been carried out in the same format. In 2022, in-person attendance was resumed for 13 cooperatives, 7 cooperatives in the southern states and 6 cooperatives in the northeast of Brazil. More than 4,100 members of these cooperatives attended. In addition, efforts to strengthen the MST marketing network have continued, working with the "Armazens do Campo". Support has been given to the opening and management of new premises (24 at the present time), to inter-cooperation between these premises and the continuous training of the people involved in the project. The year 2022 ended with a change of government in Brazil, a change that will open up new job opportunities in the coming years.

2023 OBJECTIVES

- Implement the Armazens do Campo support and reinforcement programme, systematising and standardising the production processes of all the shops, establishing an ERP management system for the entire network.
- Prioritise support to cooperatives in the 3 southern states, consolidated through support groups.
- Support the strengthening of the marketing strategy of the MST cooperatives.
- Continue with the consolidation of the five agricultural industries in the state of Ceará.

Natxo De Vicente Casillas
(Rio Grande do Sul)
Member Copreci Coop.

Itziar Aranburu
(Ceará) Member Ulma Forja Coop.

Xabier Etxebarria Unzurrunzaga
(Ceará)

Julio Martínez Arija
(Sao Paulo-Minas Gerais)
Member Eroski Coop.

Daniela Santos Ferreira (Industrial manager of the Cooperative Cooperamuns, Casa de Polpa):

“The Mundukide Foundation has played an important role in the organisational process of the cooperatives of the landless workers’ movement in the state of Ceará. Through the provision of financial resources and technical support, it has contributed to the creation of the inter-cooperation network, the acquisition of production supplies and training for cooperative members in business management, production and marketing”.

Africa

REGIONAL SOCIO-ECONOMIC DEVELOPMENT

We continue to strengthen the capabilities of people so they can contribute to their socio-economic development and that of their communities, in countries such as Mozambique and Ethiopia.

Training people

Participants:	14.900
Beneficiaries:	64.239
Investment undertaken:	813.323€
Production support:	1.603.000€

Agricultural production

Irrigation Systems

Technical assistance

Supplies and marketing network

Ethiopia

Figirte Gizawu Alame
(Farmer from TIYO)

"I'm a widow and I have 4 children. I received 10 laying hens from SOS Sahel and Mundukide. By selling the eggs I have been able to improve my children's diet and expand the family vegetable garden".

AIMS OF THE PROGRAMME

Improve the agricultural production and productivity of farming families through training, crop diversification, implementing good agricultural practices in dual-purpose crops (both food and cash crops) and facilitating access to agricultural supplies and credit.

2022 BALANCE

The year has been extremely complex in Ethiopia, with the declaration of a state of emergency, war, prohibition of meetings, street protests, etc. all of which has made the implementation of the project extremely complicated, especially training, where it has not been possible to reach all the people we had planned. In spite of this, we have set up some initiatives for the production of apple trees, avocados, small vegetable gardens and chicken breeding in order to improve the income of the peasant women.

2023 OBJECTIVES

- Completion of the pilot project and evaluation of results.
- Identification of new activities, partners and even locations that support the diversification and improvement of the current programme's impact.
- Reactivation and conclusion of the legalisation process of Mundukide in Ethiopia.

Jorge Lima
(Arsi)

Jorge Lima (Aid worker): "Ethiopia is a country with great necessities. Farmers suffer from severe climatic crises, very limited availability of land and a precarious marketing network for their production. Mundukide's aim is to find the right working space for them, to make a difference for the farming community."

	ACTIVITY	INSTRUMENT	RESULT	WOMEN
2 ZERO HUNGER 	Promote agricultural and livestock production	Technical assistance and access to production supplies	241 women have started dual-purpose agricultural and livestock production (Food and Income)	241
	People benefitting	Articulation and organisation of the associations themselves and among themselves	1205	55%

Mozambique

AIMS OF THE PROGRAMME

To create, together with the farming families of Niassa and Cabo Delgado, new opportunities for better agricultural yield, and at the same time increase the scarce resources available to improve living conditions and have a freer life.

2022 BALANCE

Due to the aggravation of armed conflict in the north of the province of Cabo Delgado in the last 3 years, our work here has been directed at helping people who, fleeing from the fighting, have arrived in the districts where we work. In the province of Niassa, agricultural production and marketing has undergone major expansion. At the end of 2021, three new teams were created to work with the farmers in the districts of Mwembe, Sanga and Ngauma, so by the end of 2022 there will be a total of 10 teams in Niassa and Cabo Delgado. In addition, the programme has implemented a new methodology based on neighbourhood groups of farmers aimed at achieving an even greater dissemination of the techniques and crops in which, thanks to the work done with the instructors in recent years, the programme has a significant number of participants.

Elena Ramos de la Cruz

“Progress is noticeable in the towns and villages where we have intervened over the last year. In particular, thanks to the production of sesame, soya beans and vegetables, families have obtained good results. We want to continue extending the programme to reach new districts and provide improvement opportunities for more farming families.”

The black spots according to GPS measurement represent all the farmers' fields assisted by the programme in the last few years.

AID WORKERS

Elena Ramos De la Cruz
(Niassa)

Fabrizio Graglia
(Niassa)

Javier Mendoza Cuartero
(Niassa)

Maria Olivera Martín
(Cabo Delgado)

	ACTIVITY	INSTRUMENT	RESULT	WOMEN
	ACCESS TO TECHNICAL ASSISTANCE	Agreements with 15 farmer associations with experience in different crops.	99 trainers working and living with the participant families for four months.	18
	ACCESS TO PRODUCTION SUPPLIES	440 neighbourhood groups of farmers, 99 instructors and 35 rural traders facilitating access to supplies.	40 tonnes of seeds, phytosanitary products and tools worth €120,000	
	COMMERCIALISATION OF SUPPLIES	14,659 families (63,034 people) have cultivated 3,100 hectares with the recommended techniques	The 14,659 families participating have achieved an additional income of €1,600,000 from the sale of their crops.	3,631 families represented by women and 32,778 women in the participant families
				

2023 OBJECTIVES

- Collaborating with 16,000 families so that they manage to apply new techniques and crops on 4,000 hectares of land, and achieve an income of €1,800,000 from the sale of crops.
- Continuing to improve the methodology of farmers' neighbourhood groups to support further dissemination of techniques and crops that have already achieved a solid local base.
- Continuing to work with the methodology of women farmer instructors in cases where external support is needed.

Deolinda Julio:
(Farmer from
Nairubi, Majune)

“Selling a good production of onions has enabled me to feed my children better and to buy chickens to sell eggs. Thanks to the improved techniques Mundukide is providing us with, I will be able to send all my children to school, if they want”.

Paula Armesto
(MAIER Coop.)

“In the cooperatives in Brazil I have perceived the initial cooperative feeling, people associated with a common need as opposed to the well-to-do reality of our welfare cooperatives”.

AIMS OF THE PROGRAMME

To facilitate experiences of reflection, learning and action to bring global realities and their local specificities closer together, for a critical and global social transformation, leading to fairer, more supportive and self-managed societies.

BALANCE 2022

Throughout 2022, the activity has continued with the cooperative educational agents of Mondragon Unibertsitatea and Arizmendi Ikastola, also promoting SDG training for teachers at the University. Meanwhile, the GEHIKOOP members’ trip to Brazil, scheduled for 2020, has finally took place, bringing the Gehikoop pilot project with the MAIER, COPRECI, FAGOR EDERLAN and ARIZMENDI IKASTOLA cooperatives to an end.

ACTIVITY	INSTRUMENT	RESULT	WOMEN
 SUPPORT WITH EDUCATION AGENTS	Training sessions with MU GEP and Enpresagintza. Collaboration with Arizmendi Ikastola	386 MGoiEs-kolaP+ 195 MUEnpresagintza	188 women (32%)
TRAINING TRAINERS	University teacher SDG course	37	20 (54%)
SUPPORT FOR COOPERATIVES, TRAINING, REFLECTION AND ACTION	Visit of cooperative members MAIER, COPRECI, FAGOR EDERLAN AND ARIZMENDI Ikastola to cooperatives in Brazil	6	3
PEOPLE PARTICIPATING		624 people	211 women

2023 OBJECTIVES

- Evaluar los resultados del Proyecto Gehikoop y definir el nuevo proceso.

Edu Abarrategi
(FAGOR EDERLAN Coop.)

“Getting to know the reality of Mundukide on the ground is worthwhile and reminds us that the way we live has consequences for other people. This is why we must take urgent action to change things”.

2022-25 Strategic Plan

STRATEGIC MAP

	CHALLENGE	STRATEGIC LINES
CHALLENGE 1	EXPAND INTERCOOPERATION AND ITS IMPACT	LINE 1 - INCREASE RESULTS IN INTECOOPERATION PROGRAMMES
		LINE 2 - IMPROVE THE PROCESSES OF GROWTH AND MEASURE THE IMPACT OF THE PROGRAMMES.
CHALLENGE 2	STRENGTHEN THE TEAM AND THE ORGANISATION	LINE 3 - STRENGTHEN THE TEAM
		LINE 4 - SOLVENT AND EFFICIENT ORGANISATION
CHALLENGE 3	INCREASE VISIBILITY AND LINKS WITH COOPERATIVES	LINE 5 - INCREASED VISIBILITY
		LINE 6 - STRENGTHEN THE LINK BETWEEN THE COOPERATIVES AND THE MUNDUKIDE PROJECT.

In 2022 we launched the new Strategic Plan for the period 2022-2025, which focuses on UNIVERSAL SOLIDARITY through WORKING on SOCIAL TRANSFORMATION. These values are embodied in long-term, results-oriented cooperation to create effective solutions with local impact. Our commitment for the next four years is to INCREASE THE IMPACT OF OUR COOPERATION to continue offering more and better life alternatives to thousands of people. To do this we will also have to work on people, partnerships, and resources to strengthen our organisation...

Inter-cooperation

MUNDUKIDE AWARD

The short film entitled NAHAR by Iraia Irazusta and Beñat Goia won the Mundukide prize in the XVI Edition of HUHEZINEMA. Through a conversation between two friends and focusing on the refugee crisis in the Middle East, the documentary invites reflection on the imbalances in the world. To do so, the protagonists gathered around a table insist on the right to decent food that everyone needs.

CHRISTMAS POSTCARDS

Mundukide postcards are an easy and supportive way to send Christmas greetings in a spirit of solidarity. The wide variety of postcards available are designed so that they can be used either in digital or physical format, with no limit to the number of postcards that can be sent. Thanks to the sale of these postcards, available to cooperatives, shops, schools, etc. Mundukide manages to raise money to put back into its programmes.

MUNDO XPLORA

The thematic space MUNDO EXPLORA of Viajes Eroski in Bilbao has once again become a meeting point for the young people taking part in the 3rd edition of the trip to Ecuador and for people interested in finding out about the experience in the Andean country. The presentation was 24 November. Throughout the week, a photographic exhibition represented the experience in detail.

BADA BESTE MUNDU BAT

Thanks to the inter-cooperation between LABORAL Kutxa and Mundukide, the 3rd edition of the “Bada Beste Mundu Bat” Experience Exchange has been possible. A trip in which 11 young Basques and 3 Ecuadorians got to know the perspective of the Andean and Amazonian inhabitants who seek to protect their livelihoods and territories from extractivism activities. An experience that allows young Basques to question their position of comfort and the origin of the different realities in the world.

Through the Inter-cooperation System, Mundukide promotes the participation of different agents that make up the Mondragon Cooperative Experience, activating the solidarity of the cooperative world with countries in the global south.

VII. SOLIDARITY RACE

On Sunday 16 October, coinciding with World Food Day and as part of the International Week against Poverty, the VII INTERCOOPERATIVA SOLIDARITY RACE was held in support of programmes carried out by the Foundation in Africa and South America. With the participation of 300 people and more than 30 teams belonging to different cooperatives, they were able to enjoy the marvellous surroundings of the Urkulu reservoir and the company of countless people taking part in the event. For the first time, Mundukide was able to count on the collaboration of cooperatives such as Athlon, Fagor Electrónica and KREAN for the organisation of the event.

UGANDAN STICKS AND ABA TAANO

African dances and music were the focal point of the two solidarity concerts organised together with the NGO Harreman in Mondragón. The first cultural event took place on 20 July in the Monterron amphitheatre with the star group Ugandan Sticks and the collaboration of the txalaparta and dance groups TTakun and Jaiki. In November and after 4 years, the Ugandan Gospel group returned to Amaia Theatre accompanied by AGA and together they once again thrilled and delighted the 700 people in attendance.

The proceeds were donated to the cooperation programme in the north of Mozambique where we have been working for more than 20 years.

NEUTRALISING THE CARBON FOOTPRINT

Taking into account our commitment to the environment, we have measured the carbon footprint of Mundukide's activity using the programme offered by IHOBE. The total emissions for both the headquarters and the five programmes we have in place were 350 tonnes of CO₂. As a result of our work in many countries, the volume of emissions produced by air travel has been very significant. Mundukide's aim is to reduce emissions as far as possible in the short term and to efficiently offset those that are emitted.
